

# SPORTS CRADLE

High performance sports floors and sprung floors for dance, stages, sports and leisure.

**THE FLOORING CONNECTION PTY (LTD)**

# FEATURES

Our InstaSport range features three systems for sports and sprung sub-floors:

## Sports cradle and batten

Comprising special rubber crumb cradles, manufactured using recycled tyres, and timber battens. This system is particularly versatile. Height is adjustable on site, making it suitable for use on uneven floors.

## Sports batten

Comprising a timber batten with a special profiled shock absorbing resilient layer manufactured using recycled rubber crumb. This system is for use on level floors where the tolerance is 3.0mm over a 3.0m measured distance.

## Low profile sub-floor

Comprising a special profiled shock-absorbing rubber crumb layer bonded to 18mm plywood. The advantage of this sub-floor system is its 28mm height. It's designed for installation on level floors where the tolerance is 3.0mm over a 2.0m measured distance.

These combined systems produce either a Combined-Elastic (Type C) or Area-Elastic (Type A) sports floor that meets the criteria of sports governing bodies such as Sports England. The systems are also designed to withstand the loadings from users and equipment as defined in BS 6399: Part 1.

Our sports and leisure flooring is specified for both new build and refurbishment projects. [See our case studies](#) for applications in sports halls and gymnasia, dance and exercise studios, multi-use games and play areas and school halls throughout Europe.

# ADVANTAGES

60

Year  
guarantee

Compliant with  
**EN 14904** and  
**BS 6399**

**Adjustable**  
flooring  
heights

**Shock absorption**  
helps avoid injury  
and fatigue

**Combined-  
Elastic** (Type C)  
or **Area-Elastic**  
(Type A) floors

On-site floor  
**levelling**

**Fast, easy** and  
**cost-effective**

Accepts a  
**range of**  
floor finishes

Eliminates  
**sub-floor**  
preparation

Underfloor service  
**void**, incl.  
**underfloor heating**

Made from  
**recycled**  
rubber

**Long-lasting,**  
**high-performing**

Traceable &  
**sustainable**  
timber sources

Accommodates  
**access hatches** &  
fittings for **sports**  
**equipment**

requires **no**  
**subfloor**  
**maintenance**

Used beneath  
**bleacher** seating  
systems

Fully  
**recyclable**

Full **technical back-**  
**up** available
